Program Brief

Technical Association for Cyber Streams (TACS) under the Department of Computer Science and Engineering launched a new Developer Community “DevTACS” on 25th April 2022.

DEV TACS strives to develop skillful engineers along with propping up the freelancers to get more opportunities and thereby flourish. It also facilitates and promotes budding coders to develop their careers by partaking in projects.

OBJECTIVES:

- We provide guidance to aspiring coders.
- We provide emerging coders the option to participate in projects and freelance employment.
- We also aim at implementing projects for the progression and advancement of our college as well as its students.

Mr. Muhammed Swalih K of S8 CSE began the programme with a prayer. The TACS student coordinator, Mr. Mohammed Salih A K of S8 CSE, then gave a welcome address. Dr. Raji C G, Head of the Department and Professor of Computer Science and Engineering, gave the presidential address, in which she emphasized the relevance and merits of DevTACS. Dr. G Ramesh, the principal of MEA Engineering College, then inaugurated the ceremony. He also discussed the importance of computer science and engineering in today's world. Mr. C K Zubair, MEA Engineering College's administration manager, then introduced the DevTACS logo and discussed the importance of several disciplines in Computer Science and Engineering, as well as numerous programming trends. Then our special guest, Mr. Ashiq Sharaf, co-founder and CEO of Osperb Innovation, spoke about the latest advances in start-ups, the scope of Computer Science and Engineering, and the technical skills that one should pursue. The felicitation address was then given by Mr. Haneesh Babu, vice principal of MEA Engineering College. Following his congratulation, Mr. Sufyan P, TACS's staff coordinator, emphasized DevTACS's goals. Mr. Muhammed Mufeed of S8 CSE, TACS' assistant student coordinator, then gave a vote of gratitude at the end of the session.
