Event Report

SESSION ON INNOVATING FOR THE FUTURE

Venue: AC Seminar Hall, MEAEC.

Date: 18th October 2024

- Conducted By: **Dept. of Computer Science and Engineering**

Program Brief

The session on "**Innovating for the Future**", held on 18th October 2024 at MEA Engineering College, was organized by TACS to inspire and educate third and fourth-year students on the crucial intersection of technology, innovation, and entrepreneurship. Dr. Vipin VK, CEO of STEM Cadets, served as the guest speaker, sharing valuable insights into emerging technologies and their impact on the modern world. His presentation emphasized the need for sustainability in technological advancement, encouraging students to consider entrepreneurship as a pathway for creating positive change in society. The session was designed to be interactive, enabling students to engage with the speaker and deepen their understanding of current industry trends.

To make the event even more engaging, **Dr. Vipin** conducted an idea-pitching game, where participants were encouraged to propose innovative solutions to real-world challenges. This activity allowed students to brainstorm, present their ideas confidently, and receive constructive feedback, helping them develop critical skills in creative thinking and communication. The session was a meaningful experience, sparking curiosity and ambition among the students, and aligning with TACS's goal to cultivate a culture of innovation and entrepreneurship within the campus community.

Coordinators

1. Mrs. Rajeena M – Staff Coordinator
2. Mr. Ashmal M – Student Coordinator
