

Report Of Tech Talk Under XORIT

XORIT Association Tech Talk

02 September 2024

The XORIT Association successfully hosted a tech talk event on 02 September 2024 at the Mechanical seminar Hall. The event commenced with a warm welcome speech by the Student Coordinator, Ms Sapna, who set the tone for the afternoon and introduced the MICTO IT Solutions members. The program was graced by the presence of HOD, Mrs Thasleena Ma'am, who took the opportunity to unveil the newly appointed XORIT Execom members.

The event was well-received, with enthusiastic participation from students and faculty alike. The tech talk served as an insightful and engaging platform for knowledge exchange, reflecting the association's commitment to fostering a vibrant academic and technical community.

Event Description

The first session of the XORIT Association Tech Talk was conducted by Muhammed Parammel, who captivated the audience with his engaging presentation on "Mind Art." Muhammed began the session by introducing the concept of Mind Art, a unique approach that blends creativity with cognitive techniques to enhance learning and problem-solving abilities.

His session was both informative and highly useful, offering practical insights into how students can leverage Mind Art to improve their academic performance and personal development. The delivery of the session was particularly noteworthy, as Muhammed employed an innovative and interactive method of teaching that kept the audience thoroughly engaged.

Overall, Muhammed Parammel's session set a high standard for the rest of the program, leaving participants inspired and eager to explore the concepts discussed further.

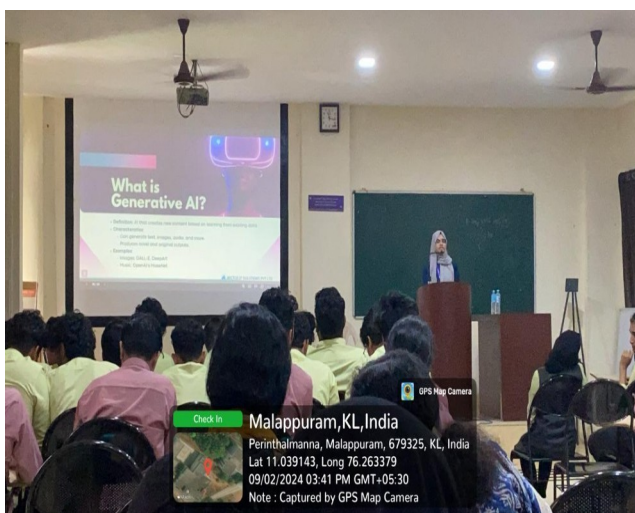

Following a refreshing tea break, the tech talk resumed with an enlightening session led by Mrs. Meharunnisa. Her presentation focused on cutting-edge topics, including Flutter, Generative AI, and Large Language Models (LLMs).

Mrs. Meharunnisa's session was a deep dive into the world of modern app development and artificial intelligence. She expertly explained the fundamentals of Flutter, a powerful UI toolkit for building natively compiled applications for mobile, web, and desktop from a single codebase. The discussion then transitioned into the rapidly evolving fields of Generative AI and LLMs, where she highlighted their potential applications and the transformative impact they are having across various industries.

The session was not only informative but also highly relevant, offering students and attendees a glimpse into the future of technology and its practical applications. Mrs. Meharunnisa's clear and concise delivery made complex topics accessible, ensuring that everyone walked away with a solid understanding of these advanced technologies.

As the event drew to a close, Secretary Shabana delivered the vote of thanks, expressing gratitude to all the speakers, participants, and organizers. Following this, several students shared their positive feedback on the sessions, highlighting how informative and inspiring they found the talks.

The event concluded with the presentation of mementos: HOD Mrs. Thasleena honored Mrs. Meharunnisa with a memento, and the Staff Coordinator, Mrs. Souparnika, presented a memento to Muhammed Parammel as a token of appreciation for their contributions to the program.

The program was a resounding success, leaving participants enriched with new knowledge and perspectives on emerging technologies.
